They're looking up, crying out; praying to somethin
they probably doubt
Not knowing where to turn or go, they humbly fall to
their knees
So where do they go from here, with all those tears in
their eyes (Strum once)
Can't fathom the feeling, just know someday it'll be
okay

Please pray for Japan, they need God's grace right now
Please pray, let's all join hands
Live Lock Love; keep your head held high always
Ohh woah ohhh always yeahhh

Death and destruction has taken it's toll, leaving people
without a home
When night falls they can't sleep, tossing and turning
like the sea
Can't fathom the feeling, just know someday it'll be
okay

Please pray for Japan, they need God's grace right now
Japan you'll be okay, Live Lock Love
Always
Ohh woah ohhh always
Japan you'll be okay, just believe it
Repeat:
They're looking up, crying out; praying to something
they probably doubt
