Someday we'll have all the answers
We won't have to fight at all.
Just believe in second chances.
And stay close to where you are.

Cuz you and I, we are always trying to find a love that
We've never really known

You don't need time just to stand alone
Don't say you and I can't carry on
All we need is someone who knows
The road designed for two
Where love can make it through

Some may say that its' not worth it
That it's not worth the work at all
But something tells me that I'm closer
Than I've ever been before

Cuz you and I, we are always trying to find a love that
We've never really known

You don't need time just to stand alone
Don't say you and I can't carry on
All we need is someone who knows
The road designed for two
Where love can make it through

(Instrumental Break)

You don't need time just to stand alone
Don't say you and I can't carry on
All we need is someone who knows
The road designed for two
Where love can make it through
Where love can make it through
