So stupid to think, that someone watching from the
skyes
And for your bad habits he wanna kick your ass
So smart to gain money from "the saint lies"
You closed you mind, wake up, open your eyes
They saying to you: you must don't drink and don't fuck
And by the way "pashion of", I think this movie suck!

I say fuck to tha god, where the curse of my head?
I say fuck to tha christ, but I don't become dead
If god still existed and wached everywhere
With my fucking lifestyle, I will first go to hell
