You r sisters blood on my hands
She did nt follow my demands
Caught in the line of fire
She was my only desire

With furious rage I caught her eye
As she was telling I lie
She made my go down this path
The bitch unleashed the devils wrath
She made my go down this path
The bitch unleashed the devils wrath

I can t control what I feel
And everything just seems unreal
As I grab her by the neck
Am I ready to take the next step?

She made me like this-
She made me evil
The way I see it
We will never get even
My soul is numb!
Her skin I getting cold as fear takes hold

Fool me once
Fool my twice
A dead whore tells no lies
So here I stand
With you r sisters blood on my hands

So here I stand
With you r sisters blood on my hands!
