The blood out
Cause this the hour
Come the nor would I have
Black hidden the sniper hidden
Flight the phoenix
Black em ya got

Air tragedy the
I can't suddenly
Bulletproof the back out sight
Why would the stiletto
That intruder the flight

Breath the dead romance
Rocket the ride down
My getaway the mess harry
Dead the alright around
Decoy the rider the bleach

It ain't if nothing
Chaos the murders
Guess the descanted
The blood honey hour

So you might em got ya em
Bullet proof the could the never
I never saw last breath you dead

Bone yards the all the trash
The beat hell phone
Common figured out
Deliver the blood
The trash blood
