After everything you've done
After your second face failed
This time there's nothing left to save
And your words were broken
With the touch of vipers you set your words upon my
back
Spitting daggers you can't kill those already dead

Buried beneath a pile of one liners and cheap attempts
at honesty
Buried so fucking far from your worthless lies
And the fire
The fire to cleanse your mouth

You'll never awake from your hell and from a second
you almost had me fooled
Keep walking
Keep breathing
Keep cursing our names
We're plotting your end by the dawn
We're apparitions that stalk your every turn
We're death incarnate to cleanse you from this world

Midnight
Until I see your face again
Until I end this loveless dance
Midnight
Until I see you fucking scream
And until I see the moonlight shine with your blood

We'll dig your grave
Fuck it
We'll dig your fucking grave

Until I see you face again
Until I end this loveless dance
Midnight
Until I see you fucking scream
And until I see the moonlight shine with your blood

Midnight
Until I see you face again

Until I end this loveless dance
Midnight
Until I see you fucking scream
And until I see the moonlight shine red
