Forever Fucked!!!

We wage war of suffering a deceit

One hundred thousand years if dreaming

Drowned in a flood of fear and greed

Precious heritage laid wast before the chainsaws  
snarling teeth

Bleed the earth

Bleed her 'til her heart no longer beats

And still we wonder why

As the ground beneath our feet turns to dust

The air we breathe

Laced with poisons

A legacy of disgust

A legacy of sorrow

So we're born with nothing and we die alone

We're born with nothing

And we die alone

Regrets is all we have

Death is all we know

Forever Fucked!!

Eradicate the truths of history

Train our eyes

Train our minds

So we no longer see the casualties

Countless cultures murdered

Generations stolen and deceived

No guilt to bear

Born to consume, to breed

To deny all that keeps us free

We're born with nothing and we die alone

Bah!!!!

We're born with nothing and we die alone x5

We die alone

Forever Fucked!!

We're born with nothing and we die alone x2
