(Intro)

I wanna go(go)
Far away from you(you)
Not to see you,
Not to love you again.

(Verse 1)

Girl you'r always on my mind that I can't stop myself
from thinking.
Girl you'r always waste my time that I can't spend my
time by working.
Girl you'r always on my track that I can't stop myself
from moving.
Girl you always put me down that I can't just keep on
standing.

Eh eh eh

Every second, every minute, every hour, every day.
Keep on thinking of you(keep on thinking of you).
Keep on hoping of you(keep on hoping of you)
Every second, every minute, every hour, every day.
Keep on thinking of you(keep on thinking of you).
Keep on hoping of you(ohh hoping of you).

Girl you gotta put me down,
When I walk up in the town,
I know that I've found you,
But I can't make any sound
Girl you gotta put me down,
When I walk up in the town,
I know that I've found you,
But I can't make any sound(sound sound sound)

(Chorus)

Don't tryna keep faith in love,
Coz your life will be tough.
You gonna find your heart rough
And realize it's a stuff.
Don't tryna keep faith in love,
Coz your life will be tough.
You gonna find your heart rough

And realize it's a stuff.
Love is poison
Love is poison
Love is poison
Love is poison

(Verse 2)

Never tryna taste it
Coz when you taste it,
You gonna die of it
Coz you can't leave it.
Don't tryna taste it
Coz when you taste it,
You gonna die of it
Coz you can't leave it.

(Okay, alright, you can do it coz you'r my only one)

She don't really want me to kiss her right now.
But I really wanna hug and kiss her right now.
She don't really want me to kiss her right now.
But I really wanna hug and kiss her right now.
I say, cummon, catch my eyes,
And I'ma catch your's too.
Cummon hold my hand,
And I'ma hold your's too.
The night is so young, we got plenty of time to make
love(make love)
Both of us are so young, we don't have to make run
away love(away love)

Just you and me together,
We gonna last forever.
Don't worry about the weather,
It's spring forever.
Just you and me together,
We gonna last forever.
Don't worry about the weather,
It's spring forever.

(Chorus)

Don't tryna keep faith in love,
Coz your life will be tough.
You gonna find your heart rough
And realize it's a stuff.
Don't tryna keep faith in love,
Coz your life will be tough.
You gonna find your heart rough
And realize it's a stuff.
Love is poison
Love is poison
Love is poison

Love is poison

(Verse 3)

I'm not attracted in your gloss.
In your love I'm completely lost
I'm not attracted in your gloss.
In your love I'm completely lost
You touch my soul, my heart, my body
And why you tryna leave me and go my shawdy.
You touch my soul, my heart, my body
And why you tryna leave me and go my shawdy.
She don't wanna hear it at all.
She don't wanna see me at all.
She don't wanna hear it at all.
She don't wanna see me at all.

(Chorus)

Don't tryna keep faith in love, (my dreamz fly)
Coz your life will be tough.
You gonna find your heart rough
And realize it's a stuff. (in the sky)
Don't tryna keep faith in love, (I try)
Coz your life will be tough.
You gonna find your heart rough(to cry)
And realize it's a stuff.
