Move soft
Breathing and it feels like
In my heart
Tell me, boy
Make my finger run around
(Chi-ki chi-ki chi-ka)

Go give all your best
Through that
We'll fly away to paradise
Loving to the night
Oh, baby feel my love

Maybe you can melt in my arms until morning
I'm gonna show you what love is mean to me
Gonna wake up your past, come and to stay
Honey, melt down my heart
Baby, you can melt in my arms just before me
I'll be your shelter just know fun
Let me take you to dream, just give the thing
Two hearts is with all us forever, together
