Black rituals, human sacrifices  
Join us in the mistery, enjoy this night

We adore the lords, the lords of the night  
There is no fantasies, into our rites

Your sacred creeds, are only lies  
Soon you will see, the truth from the past

They'll need your blood for the hateful cult  
They'll seek your soul  
INsanity reign in your mind  
Insanity is your destiny

Into This land you'll feel the fright  
The Nightmare fall, don't try to run

Around the deads  
You'll feel the fire  
You'll be possessed  
Death is your own desire

Satisfy, the hidden lords  
Give your life  
You're an evil brood of ancient lords  
Lords of this world

Give your soul, live in their spell  
Down below, awaits in hell

"Take us to your ways,  
Make me one of yours  
Lords of eternity  
I'm invoking you"

Do you feel good?  
You look so afraid

Awaits the moment, when stars are right  
And the lords of torment, be here for the rite
