Feeding the fever  
With the sorrow they adore  
Give them the pain they love  
The pain for insanity and chaos  
The chaos - A bite for more

The order to darkening the skies  
The might to prevent the days  
With a heart of stone cold as ice  
Begone, Lord of forgiveness

Enter the fever forever!

Feeding the fever  
With the sorrow they want  
Now give'em the lies they need  
The lies for insanity and chaos  
The chaos - A creed in gore

Prepare to enter my nightmare  
Beware - Fever the mind  
My mind is about to explode!  
Fever! Fever the mind!!!

Enter the fever forever  
Feeding the fever forever

Helpless rage between the worlds  
Visions of transformation  
Shackled by reincarnation

FEVER THE MIND!!!
