This repercussion's messing with your ghost  
I feel you through the air now  
Wish I could tell you that I miss you most  
I miss you most, all the time now

*[CHORUS]*

Sleepwalker miss you much  
I can almost feel your touch  
It's killing me  
And I want it  
Sleepwalker miss you most  
I can almost see your ghost  
Scaring me and I'm haunted

You left me nothing but a broken soul  
An empty hole, memories bleeding

And all our friends they say to let you go  
But they don't know  
You're still breathing

*[2nd CHORUS]*

Dead or awake, you said you'd always be  
Right with me  
Asleep or alive you swore you'd never leave  
But I can see you

*[2nd CHORUS]*

And all our friends they say to let you go  
But they don't know  
You're still breathing...
