Poem boy failure, be what you know  
Keep us in line, with a vicious blow  
Now this is future, predictable slow  
Love you can be, even though

Can't do wrong, can't do right

Solution time, can't be on your own  
Solution time, like the incredible

Forum girl nature, free this kites string  
And it will bring something wrong  
And every wasted ride, you treat me wrong  
Carmen seem wrong, in the way  
Can't do wrong, can't do right

Solution time, can't be on your own  
Solution time, like the incredible (repeat)

You know rhythm grated rhythm (repeat)

Solution time, can't be on your own  
Solution time, like the incredible (repeat)
