I have a Mormon friend from Makati
And he said he does not drink coffee
I said hey that's okay
You sleep better that way
Your my friend then that's all that should matter

I have a Muslim friend in New York
And she said she wont have any pork
I said hey that's okay
You'll stay healthy that way
Your my friend then that's all that should matter

I have a Christian friend from La Salle
At paglagi syang nagdarasal
Na sila ay manalo against Ateneo
He's my friend then that's all that should matter

One day I ask bout what would they say
If I told them I think I am gay
They said hey it's okay
If your happy that way
Your our friend and that's all that should matter
They said hey it's okay
We don't mind that your gay
Your our friend and that's all that should matter
