"How To Make Love Song"

Visit "[How To Make Love Song](#)" on MotoLyrics.com

The first part of this song, I guess
Should start with something sweet
Cause love songs often do,
And you know me, I'm such a geek
For songs that I could sing to you
And I'm hoping this could be one
And I hope that you would like me
Este... like it when I'm done

The second part is easy
To mess up with something cheesy
So I better choose my words
Cause I don't want it to be mushy
Cause that's the thing with love songs
And that is the tricky part
It's hard not to sound corny
When you're singing from the heart

And when the chorus comes,
I must come up with something clever
For you it's just a love song
But for me it's now or never!
And though I tried my best to make it beautiful and true
I could never make a song as beautiful as you

[Instrumental Interlude]

And when the chorus comes again,
Again I must say something clever
Cause for you it's just a love song
But for me it's now or never!
And though I tried my best to make it beautiful and true
I could never make a song as beautiful as you
I could never make a love song as beautiful as you
