Just press "skip"
And this song
Will be gone.

But you'll miss the first part
Where recording an album becomes just like art
But who cares? No, not you
'Cause you all want to listen to track number 2!

Where it starts to be fun
Not like here in the middle of track number 1!
Where it's dark and so cold...
And the chorus is starting to get real old!

If you don't like this song

And this song
Will be gone.

You're still here!
That's just great!
'Cause you're here to enjoy
What we did for art's sake!

And for that
Thanks to you!
With no further adue
We present Track no. 2!
