It's never gonna happen, no

Is it over yet?

It's been 23 minutes

And now you're talking about your ex

There's something about you

Gives me a bad feeling

And I can't work it out

No I can't work it out

I, I, I, I

I, I, I, I

Don't wanna hold your hand

Don't wanna do this again

Don't wanna waste your time

It's never gonna happen, no

And now you're talking to yourself

Cause I'm not listening

No I'm not listening

I, I, I, I

I, I, I, I

Don't wanna hold your hand

Don't wanna do this again

Don't wanna waste your time

It's never gonna happen, no

Came here with an open mind

Wish I was lost in your eyes

But it's never gonna be like that

Don't wanna hold your hand

Don't wanna do this again

Don't wanna waste your time

It's never gonna happen, no

Came here with an open mind

Wish I was lost in your eyes

But it's never gonna be like that
