Never mind the state I'm in,
I'm popping pills to get by
Overrating, calculating every
single word you say
I'll be alright as time goes by,
'cause it heals all wounds they say
Never mind the afterglow, it still
burns when I'm gone

Save it for the afterglow, gone,
yeah save it for the afterglow

So never mind the afterworld, it is
only temporary and I'll be gone
before you're done
questioning my actions
I'll be miles away... you'll be here
when I'm gone

You'll be gone
when I'm back again
You'll be gone when I return
All is not lost, just 'cause I fall
down, all is not lost just
'cause I'm gone
