Put my girl on the line,
The morning lights are one.

They resent her sweet love,
She'll throw them all out.

She leaves a rope by the door!

It's a way to keep them on their toes

Kiss them all away for me my dear,
Ride in on your deathhorse & save me
I know you! (2x)
(Ride in on your deathhorse)

Put my girl on the line,
It's cold in here and you've got black-stained teeth
from chewing coal hearts.
She leaves a trail of dead behind,
With the morning light it's safe to go outside.

Kiss them all away for me my dear,
Ride in on your deathhorse & save me
I know you! (2x)
(Ride in on your deathhorse)

Got to find a way to kill the white horse.
Kiss'em all away with your deathblow.
Make'em go away, make it safe again.
Baby brought a gun to a knife fight.
Leave a trail of dead behind as a warning sign.
I've got to get my girl on the telephone.

Kiss them all away for me my dear,
Ride in on your deathhorse & save me
I know you! (2x)
(Ride in on your deathhorse)
