Oh honey don't you do that thing  
Oh honey don't you do that thing to me, that thing to  
me  
Oh don't you do that thing to me  
Please don't do that thing you do to me

Oh honey don't you to sing to me  
Oh honey to sing like that to me, like that to me  
Oh don't you sing like that to me  
Oh honey don't you to sing to me  
Oh honey to sing like that to me, like that to me  
Oh don't you sing like that to me  
Please don't sing all dark and low to me

Oh honey don't you smile at me  
Oh honey don't you smile that way at me, that way at  
me

Oh don't you smile that way at me  
Please don't smile that wayward smile at me

So honey don't you come for me  
So honey don't you do come 'round here for me, 'round  
here for me  
So honey don't you come for me  
So honey don't you do come 'round here for me, 'round  
here for me  
' Cause I just might fall for you  
And that would be a damn fool thing to do  
' Cause I just might fall for you  
And that would be a damn fool thing to do
