English Translation:

All I want to know is if you ever think of me when you  
are far away,  
When you are lonely if you ever search for me,  
In your dreams if you search for me somehow  
Can you hear, can you hear the sound of someone

sending out their heart  
I ask you, have you forgotten the old days  
In the past I still remember when I was able to embrace  
you  
The word love, you said you loved me with all of your  
heart  
Do you remember? Because I have not forgotten those  
words

\*In the moments where you you call for me I will come  
immediately  
No matter how far, as long as it's you I will put  
everything aside  
You don't have to ask, I will go even if there is no way  
I will let you know one more time that I still remember

Even if you lie to me I will still believe that you have not  
forgotten the significance of your confession  
The story will never change. This makes me happy.

\*In the moments where you you call for me I will come  
immediately  
No matter how far, as long as it's you I will put  
everything aside  
You don't have to ask, I will go even if there is no way  
I will let you know one more time that I still remember

\*In the moments where you you call for me I will come  
immediately  
No matter how far, as long as it's you I will put  
everything aside  
You don't have to ask, I will go even if there is no way  
I will let you know one more time that I still remember

Oh, I will not forget you  
Will you remember? Will you remember that I will never  
forget you?  
Will you remember? Will you remember that I will never  
forget you?
