English Translation:

close your eyes okay? okay good girl?  
I hope that at this time you will sleep and rest  
I'll sing you a lullaby about love for you to sleep  
before the sky becomes bright and its dawn

close your eyes okay? okay good girl?  
there's nothing for you to worry about, not a thing  
all the things you carried, please put them down  
let the world pass like its only a dream

if you were to know... how important you really are  
if you were to know... that there is someone that loves  
you so much  
if you were to know... that he was willing to do  
anything  
so that you will find happiness

you probably wouldn't have to wander aimlessly,  
worry about everything  
you probably wouldn't have to be tired trying to find  
someone to relieve your pain  
just one person that would be willing to give everything  
even the last breath, just so you know

if you were to know... how important you really are  
if you were to know... that there is someone that loves  
you so much  
if you were to know... that he was willing to do  
anything  
so that you will find happiness

you probably wouldn't have to wander aimlessly,  
worry about everything  
you probably wouldn't have to be tired trying to find  
someone to relieve your pain  
just one person that would be willing to give everything  
even the last breath, just so you know

close your eyes okay? okay good girl?  
the end of the long road ends here  
just hold my hand and trust in me  
the greatest love will go to you
