English Translation:

Drizzle of rain the day we met. (She told me that it does
not matter).
I looked at the dark sky. (Clouds and pretending to cry).
I walk alone across the middle of the rain.
Despite the cold, rain fade, but inner peace.
But when she came hand in hand. From this, we have
become.
Loosen the sky is sad and I know the warmth of the
winter rest.
And no longer in love with her light on me.

The two products is bound to be marked on the road.
These are a shadow of a lonely heart.
I also have a projector is light, warm fabric.
The arms that keep the body cool.

And made me see that life has meaning.
I love to look beautiful film.
I would not drop passes. (She told me not to fear).
Rain in the light of new (Two of us are not so bleak).
Although there are a few ways to keep wind, rain and
my neck. I still have to hold her hand.
When she was a warm embrace, as I do not be afraid
A long way to go, she's not alone.
There, but she and I walked to the side.
Whether he is happy or not.
A long way with her and me.
