Let's go - The world has lost all it's heroes  
They had to quit their dayjobs - they shut their weapons  
away.  
This world - it sucks - we need our heroes back.  
Their life - is poor - and degrading, too.  
They changed their horses to ice-trucks - selling ice-  
cream today.

Get out - NOW - Get out now

Increase the request for heroes - need more villains  
- NOOOOW  
We need to be more evil - We'll get'ya, we'll get'ya  
NOOOOW

||: Get out - NOW - Get out now: ||

Got to get out - Terence hills have ice - got to get  
out  
Got to get out - Terence hills have ice - got to get  
out  
No - Terence Hills have ice  
No - Terence Hills have ice

They find no solace beneath a desolate sky  
This is their exile  
This is their apathy

We need to fuckin' erupt!  
The Austins set an example - they terrorize the world  
with their music  
We'll get'ya, we'll get'ya NOOOOW
