"Circle Of Kinetic Damage"

Visit "[Circle Of Kinetic Damage](#)" on MotoLyrics.com

Sound of ordinary tilts by the failure of transmission
It twists in the mangle of disrhythmic mutilation
And amusement create whole new elegy
Failed system reflect it makers bane
Now every one recognize it, and embrace it's pace as a
new form for the wave of sound

It spins a round. Chaos. Melting within

Burst into circle of damage

And Civilization trample in the fear of the new wave
Pitmongers found chaos circle in most repulsive way
Many were stomped to the ground
And warfare brought together for this plague
This plague is in everyone. can't hide it, can't live with it
