And now the cold is here again  
It leaves the purity unstained  
It's bony hands will fixiate  
The beauty of the cleanest slate  
The figment of the ghost of hate  
An argument

Chorus

Seeds are set on june the second  
Water falls and sun will feed your crop

Harvest hope

And now the water stops it's flow  
And every creature is moving slow  
It deadly breath is not the end  
It is a way to breath again  
It is a promise heaven sent  
An argument
