Feeling like a frisbee
Spinning head 'round in devotion
Keep coming back for her love
I'm like a boomerang too
Floating on a good drive
But I guess the wind is turning
Is it a matter of time now?
Before the swallow gets swallowed

She loves me more than I can trust
It's like a car that never rusts

Feeling like a frisbee
Spinning head down in the ocean
Again I'm landing softly
She had another save
Floating on a big wave
Knowing friday's coming to me
It's just a matter of time now
Before the fragile weekend, the weak end

There comes a time for us...
