In this black hole where I still love you
I grow roses in the dark
In this black hole where I still need you
I still have you in my heart

Forgive me, I'll die for you
Don't leave me, I cry for you
But now you're gone and I hate myself
Please believe me, I still love you

Black whole, an empty space

I close my eyes and I see your face
Can someone please show me how to lie?
I feel free now and I hope you'll cry
Feel free now and I hope you'll cry

You died for me, still alive for them
Will this void ever go away?
You feel free now and I hope to die
You feel free now and I can live a lie
