"All My Lovers"

Visit "[All My Lovers](#)" on MotoLyrics.com

All my lovers turn to stone
Relics of hope in a night garden
Only i visit when i sleep
I walk among you
Touching the surface
This is my secret place where i unafraid
And unashamed
Linger at your lips
Tasting your milk
It's my renewal
In times of isolation
I come to you
Secret addiction
And in the daylight i wait eagerly
To visit you
Again and again and again
For ever when i will stop
Oh, i do not
This is my only link to freedom
I fear
All my lovers turn to stone
Relics of hope in a night garden
Only i visit when i sleep
I walk among you
Touching you
