Stay here with me
And I'll find us a way to fly
Infinitely, dreaming forever
On and on

Fade back into the
Chambers of my memory
Before morning breaks
As the sky lights
I will never forget you
Safely through the day

Within the mind's eye

Return to me
And find us a way to fly

Infinitely, dreaming forever
On and on

Fade back into the
Chambers of your memory
Before morning breaks
As the sky lights
You will never forget me
Safely through the day

Within the mind's eye
Secrets go lurking
Within the mind's eye
We are safe
