Ooh, ooh, ooh, riding on a storm over northern land
Riding on a storm over northern land
Riding on a storm over northern land

Ooh, ooh, ooh, riding on a storm over northern land
Ooh, ooh, ooh, riding on a storm over northern land
Riding on a storm over northern land
Riding on a storm over northern land

Is it day or it is night no one knows
(Your Guardian Angel)
Walls of clouds
(Walls of clouds)
Dim all light tension grows
(Your Guardian Angel)
Over dark
(Memories)
Endless woods mountains high
Heaven cries and the storm is growin' wild

Ooh, ooh, ooh, riding on a storm over northern land
Ooh, ooh, ooh, riding on a storm over northern land
Riding on a storm over northern land
Riding on a storm over northern land

In this rough, furious scene You and I
(Your Guardian Angel)
Flyin' high
(Flyin' high)
'Cross the wild lonely sky
(Your Guardian Angel)
Down on earth
(Promises)
Our world like a toy
Love's the child of the night bringing joy.
