"Young Hearts Forever"

Visit "[Young Hearts Forever](#)" on MotoLyrics.com

Time is runnin' fast it seems we'll lose control
Mother earth is tumbling just about to fall

But we are young and dreams come free
Let us teach the world we see
We're born to live eternally

Young hearts forever
Young hearts die never
Young hearts will always
Change the world

Two against the wind whatever day may bring
(And) we keep each other warm when the night comes
in

'Cause we are young and dreams come free
We will teach the world to see
We're born to live eternally

Come on baby, wipe the night out of your eyes
'Cause a new day's dawning and the sun will rise

Ooh, we are young and dreams come free
Let us teach the world to see
We're born to live eternally
