Warriors going to attack  
Another town will fall tonight  
On the banner crime and sin  
They'll rape the virgins off their skin

Battlefield  
Death and glory side by side  
Battlefield  
Could you say who's wrong or right

All they built up was in vain  
Ruins remember former times  
Smoke and fire all around  
Burning bodies on the ground

Battlefield  
Death and glory side by side  
Battlefield  
Could you say who's wrong or right

There is still a rest of men  
Just revenge is on their minds  
But if they try to fight back  
The tyrant rapes them of their heads

Battlefield  
Death and glory side by side  
Battlefield  
Could you say who's wrong or right
