I'm Painting this picture
To put it on the wall
To see if anyone will
Notice it at all
How many times I try to stand out
But I am not different
It seems that I am wrong again

Just tell me you love me
Just tell me I am strong
Can you take me away?
Where love does not go wrong
What do you see in me?
What stands out?
I'm a picture that is fading
The one that was left out

That where you come in

That's where you save me
That's when you pick me up
(Now it's time)
And that's where you come in
And that's when you save me

Just tell me you love me
Just tell me I am strong
Can you take me away?
Where love does not go wrong
What do you see in me?
What stands out?
I'm a picture that is fading
The one that was left out

Is this real?
Tell me if I'm wrong?
