"Opening Door"

Visit "[Opening Door](#)" on MotoLyrics.com

Would somebody please tell me which way to go
Show me because I just don't know anymore
I have already walked this road before
Still I believe there should be something more

[Chorus]
And I watch as you open the door
To the outside world
What's inside of me
I can not be
What is meant to be
Show me please

I have spent too much time down here below
Never remembering what I have been told
Always desiring more than I own
Wanting it all before I am too old

[Chorus]
And I watch as you open the door
To the outside world
What's inside of me
I can not be
What is meant to be
Show me please

What's inside of me
I can not be
What is meant to be
Show me please

What's inside of me
I can not be
What is meant to be
Show me please
