I know the road to your house
It's one I have never used
I have seen you many times now
Though we never have been introduced
Run through my dreams tonight
Take me for yourself
Stroll through my heart again

[Chorus]
I'm the one
I'm the one you need to use and abuse
I'm the one
I'm the one you need to use and abuse

I know all your facial features
Your habitual do's and don't's
I know all your daily travels
But will you love me, I don't know
Run through my dreams tonight
Take me for yourself
Stroll through my heart again

[Chorus]
I'm the one
I'm the one you need to use and abuse
I'm the one
I'm the one you need to use and abuse

[Chorus]
I'm the one
I'm the one you need to use and abuse
I'm the one
I'm the one you need to use and abuse
