You gotta lot on your mind
Well your mind's gotta lot on it too
You gotta lot on your mind
But you don't need a light,
Don't need a light
Don't need a light
To see the dark
To see what's wrong
If it keeps getting harder to breathe
Yeah it keeps getting harder to breathe
So let's get ready to die
Let's get ready to die
Let's get ready to die
See the smile on your face
Will I see the face of your smile
You're pulling my leg
You're pulling my leg
Pulling my leg
Pulling my leg
Pull it right out
Use it to make everyone else
If it keeps getting harder to breathe
Yeah it keeps getting harder to breathe
So let's get ready to die
Let's get ready to die
Let's get ready to die
Don't need a light
To see the dark
To see what's wrong
If it keeps getting harder to breathe
Yeah it keeps getting harder to breathe
So let's get ready to die
Let's get ready to die
Let's get ready to die
