"Maybe Someday"

Visit "[Maybe Someday](#)" on MotoLyrics.com

You came like the mornin' sun,
And I knew you were the one,
Who gave me somethin to believe in

We can feel it but we know
We can't let our feelings show,

"No Good," that's what they say about me,
You should try and live without me,
No good, they'll never understand,

Maybe someday, we can find a way to be together,
Baby someday, they'll leave us alone,
Maybe someday, there may be some way
We can sing our songs together,

Don't you worry what they say,
'Cause with every passing day,
We get closer to tomorrow,

And tomorrow we'll be free,
To be what we want to be,

They say, "He's really not your kind,"
"Look out, you know that love is blind,"
"Look out," But they don't really see

Maybe someday, we can find a way to be together,
Baby someday, they'll leave us alone,
Maybe someday, there may be some way
We can sing our songs together,
Maybe someday, we can find a way to be together,
Baby someday, they'll leave us alone,
Maybe someday, there may be some way
We can sing our songs together.
