Theres people living on the poverty line You never here too much about them I guess there just a sign of the times victims of

But still there are divisions between the rich and poor

This is a democracy not a few fucking war

Where you can do just what you want

That way you should be free

Although I must admit it doesn't look that way to me

Put Your money where your mouth is

Lets have some wealth distrubution

Dont wast it just give it away

It's gotta be the only solution

Disband the fucking Monarchy

You can do that for a start

There all just useless relics and

They are living in the past

People can't survive on the things they think we need

People who want no more are people with oout no

Were not telling you too give away your pay

We gotta get through to the rich

Surely they could do without their garden parties

Swimming pool and brand new polo pitch
