Evilution

Progress? one step backwards  
Look what we've done to our homes  
Evolved? regression, yes  
We're now at full speed  
And no one's in control

Forward? technology bliss  
But for all our knowledge  
We know nothing  
Heading towards a total halt

The beginning of the end  
Has long since past

They came... and destroyed

Progress? one step backwards  
Look what we've done to our homes  
Evolved? regression, yes  
We're now at full speed  
And no one's in control
