There's nothing left for us here
Taking it far as our eyes can see
I'm saying no to the fear
Taking a chance we like what we hear

Skin feels hot to touch, the light is bouncing
Off my face, the rush
And the sun will heat me up, temperature rising
Just can't give enough

And I'm out of control, ready to go
Trust me we're never scared
And I'm giving it all, so just act like you know
Trust me on this I swear

I'm unstoppable yeah
Unstoppable
I'm unstoppable yeah
Unstoppable
I'm unstoppable yeah
Unstoppable
I'm unstoppable yeah
Unstoppable

Calling you out, I'm I'm calling you
Calling you out, I'm I'm calling you
Calling you out, I'm I'm calling you
Calling you out, I'm I'm calling you
Calling you out, I'm I'm calling you
Calling you out, I'm I'm calling you

Sailing through the atmosphere
Chasing the sun when the skies are clear
Programmed to follow my ears
Ready to go, only got one gear

Skin feels hot to touch, the light is bouncing
Off my face, the rush
And the sun will heat me up, temperature rising
Just can't get enough

And I'm out of control, ready to go

Trust me we're never scared
And I'm giving it all, so just act like you know
Trust me on this I swear

I'm unstoppable yeah
Unstoppable
I'm unstoppable yeah
Unstoppable
I'm unstoppable yeah
Unstoppable
I'm unstoppable yeah
Unstoppable
Oh oh...

We unstoppable, we unstoppable, we unstoppable oh
oh oh
We unstoppable, we unstoppable, we unstoppable oh
oh oh
We unstoppable, we unstoppable, we unstoppable oh
oh oh
We unstoppable, we unstoppable, we unstoppable

Calling you out, I'm I'm calling you
Calling you out, I'm I'm calling you
Calling you out, I'm I'm calling you
Calling you out, I'm I'm calling you
Calling you out, I'm I'm calling you
Calling you out, I'm I'm calling you
Calling you out, I'm I'm calling you
I'm unstoppable yeah
