(Carole Hall)

My true love has a special way of waking me

He looks upon my face until I open up my eyes

Yes he wakes me with his mind and then he smiles at
my surprise

And he says

[Chorus:]

Ain't love easy if it's new love

Ain't love easy if it's you love

Lots of friendly sweet-talk things to do, love

Ain't love easy

My true love knows the sweetest way to pleasure me

When everything around me seems as black as country
night

He lights candles made of lemon and then he loves me
by the light

And he says

[Chorus]

Never thought I'd get off that lonely road I was
traveling on

Never thought I'd be anything but what I've been so
very long

But if it had to be that way to bring my life to you

If it had to be that way all I gotta say is

Ain't life easy

My true love has a gentle way of loving me

And I'm gonna love him back probably till the day I die

And the last thing that I'll tell him right before I close
my eyes

I'll tell him

Ain't love easy if it's you love

It was easy cause of you love

Lots of friendly sweet-talk lifetime things to do, love

Ain't love easy

[Chorus]
