INTRO:

You know that I've been watchin' you for quite some
time
tryin' to find a way of makin' you mine
Long before you started a-comin' on strong with me
with a super charm that brought me down to see

Hey, didn't you know that you've been actin' like a
movie star
and didn't you think I'd dig the person you are
No, you never really had to put on all that show
I decided when I met you a long, long time ago -- whoa,
whoa

CHORUS:

I would have loved you anyway
I would have thought you were fine
I would have taken you any day
I still would try to make you mine
I would have loved you anyhow
I would have thought you were O.K.
Just like I'm lovin' you here and now
tellin' ya I'll never go away -- go away

So you never really had to put on all that show
I decided when I met you a long, long time ago -- whoa,
whoa

CHORUS

REPEAT AND FADE
