There's no doubt in my mind with your wandering smile  
You won't be staying very long

Ah, but you're gonna find if you hang around awhile  
you will remember me when you're gone

CHORUS:

You may not think that my love counts for much  
But you'll remember me, baby, every single time we  
touch

One of these days you're gonna wish that you were  
mine

Don't be mistaken baby you won't be wastin' any time  
There's no need to pretend that we can foresee  
just how long these days will last

But I tell you I intend that the time you spend with me  
won't be forgotten when it's past

CHORUS

REPEAT AND FADE
