Everybody's going places, Doing things
Look at all the smiling faces sing,

(Chorus)

Havin a ball, doin their number
Havin a ball, gettin it on.
Together, together, together,
Havin a ball

People comin, people goin,
Gettin nowhere,
People needin people who can share,

(Chorus)

Taking care of business
Taking care of business
Taking care of business
Together, together, together, together

Town to town, we found a sound
That's happening.
And what we found is what we play and sing, yeah.

Havin a ball, just doing our number,
Havin a ball, just getting it on.
Together, together, together, together..havin a ball.
