High on aggression, full force  
Blasts of electric Hellthunder  
Filled with smoke stage explodes  
And Evil hits the frenzied crowds

Razorsharp noise from Hell  
The work of apocalypse is done

We're antichristian crusaders  
We're the hammer of desecration  
We bring you the metal of death  
We bring the only true law!  
Fuck with us and you're dead  
Unholy death metal commando

We're in league with Lucifer  
We're in league with Satan

We're in league with Lucifer  
We're in league with Satan  
Screamin' legions death metal  
Screamin' legions death metal

We ate the law!
