Your mind speaks empty...  
Your face, I disgrace  
In time you will learn  
What you have destroyed  
You're different than I  
I'm different than you  
Nothing's changed  
Nothing's changed  
Nothing's changed

You put me down and ruined all I had  
Took away all my self confidence  
With these issues you throw in my face  
I have no confidence

You say that I'm wierd  
You're wierd to  
Is that your excuse  
To look down at me  
Nothing's changed  
Nothing's changed

I am sad...  
I am mad...  
I have no confidence  
Are you sad...  
Are you mad...  
Do you have confidence  
Confidence

I am different than you  
You are different than I  
What's the problem
