Iâ've lost this flow
This act of focus
Leaning on the life that leaves me here

No one to hold me here
Back from this daze
No one to hold me back
Back from this daze

Mezmerized in transic material
The ever flowing of blood circulating
I canâ't let go of this vision
I canâ't keep holding on

Mezmerized Mezmerized...

Glittered to attract itâ's destiny
Found but forgotten
Where has the time gone

Lost though remembered
Just a little more to ease the pain
Hidden into the dusk until dawn

Mezmerized in transic material
The ever flowing of blood circulating
i canâ't let go of this vision
I canâ't keep holding on
Mezmerized...
