In this place
It seems like such a shame
We all look different
One way or the other
People screaming
Names I've never heard
Stares at me in their
Anguish and insanity

It's not easy, living this opportunity
It's not, it's not easy
Living in this land of opportunity
Of opportunity...

In this place
It seems like such a crime
When I do what I want
Not like others want me to
People mocking
What we do today
Why should we all have to
Suffer this way

It's not easy, living this opportunity
It's not, it's not easy
Living in this land of opportunity
It's not easy, living this opportunity
It's not, it's not easy
Living in this land of opportunity
