Visit "[Summer](#)" on MotoLyrics.com

The summers gone and the winters coming
The leaves have fallen face down on the ground
Driving fast with the windows open
Seems like only memories till next year
It's over now It's all over now...
Rainy daze and the streets are flooded
Walk around with a pair of old shoes on
It's over now It's all over now...

Summer time makes good happen
I'll drive myself insane till next year
How much longer can we be here, stuck out in the cold
Wrapped up in blankets

Summer's walks, feel the warm air rising
Rising higher and higher to fill the sky
Time is fast, yeah it's so far forward
It seems like memories till next year
It's over now It's all over now
It's over now It's all over now...

The summers' gone again
Summer time makes good happen
I'll drive myself insane till next year
How much longer can we be here, stuck out in the cold
Wrapped up in blankets
The summers' gone again
